

SINIUS. THE EFFICIENCY CLASS FROM SIRONA.

SIRONA.COM

The Dental Company

sirona.

UNLIMITED FREEDOM. WITH SMALL FOOTPRINT.

Time is perhaps one of the most valuable commodities we possess. This is why Sirona's "Class in Efficiency" deserves such a warm welcome. The new SINIUS treatment center is not only ultra-compact – it also delivers clear gains in terms of time and flexibility. This is due in no small part to the intuitive user interface, which features the latest touchscreen technology. **Enjoy every day. With Sirona.**

EFFICIENT

Integrated hygiene concept, individual price-performance concepts, choice of three versions

COMPACT

Optimal use of space, unique chair raising system, variable positioning of the assistant element

INTUITIVE

EasyTouch user interface, endodontic treatment function with ApexLocator and integrated file library

SIMPLY IN A CLASS OF ITS OWN.

Many freedoms have to be acquired with great effort. With the efficiency class from Sirona, they come to you quite automatically.

DOES THE SINIUS ADJUST TO YOUR WAY OF WORKING? FOR SURE!

With three versions, the efficiency class from Sirona can offer the right treatment center for everyone.

SINIUS

SINIUS THE SLIDING TRACK DESIGN

- Unique ergonomic treatment concept.
- Dentist element easily movable backwards and forwards.
- Swivel-mounted dentist element ensures everything is at your fingertips.

**SINIUS
CS**

SINIUS CS THE WHIP ARM DESIGN

- Dentist element rotatable through 240° for optimum positioning.
- Maximum reach of instrument tubings is 90 cm.
- Ideal for the widest range of treatment situations, whether you are working alone or in a team.

**SINIUS
TS**

SINIUS TS THE OTP ARM DESIGN

- Ergonomic tray positioning, independent from dentist element.
- Convenient tray system with detachable tray with multiple positioning options.
- Large tray areas on dentist element and tray.

MORE THAN ERGONOMICS.

Easier workflow, perfect results –
with this goal, Sirona continuously develops
its ergonomics program.

Sirona's ergonomics program is based on decades of experience in ergonomics. And as an innovator in linking digital technology with system solutions, we always think ahead. The new ergonomics circle stands for Sirona's comprehensive perspective of the relationship of ergonomics and workflow in practice routine. The round shape also indicates that Sirona's ergonomics program is being developed continuously.

INTUITIVE SITTING POSITION

More freedom of movement

Wireless foot control, manual sliding track, whip arm or OTP arm with hanging hoses

Optimized access

Perfect coordination and variable positioning of dentist and assistant elements, dentist element and tray independently adjustable on the SINIUS and SINIUS TS

Smart work stools

HUGO, CARL

COMFORTABLE PATIENT POSITIONING

Perfect adjustment of the treatment center

Flexible height adjustment, optimal working height with vertical mouth alignment

Ideal support for the spine

ErgoMotion, lumbar support

High patient comfort

Gentle lift drive, thermo upholstery, Lounge upholstery

OPTIMUM VISIBILITY

Ideal illumination

LEDview, LED instrument light

Flexible headrests

Motor-driven headrest, Double articulating headrest

Perfect intraoral images

SiroCam AF autofocus camera

INTEGRATED WORKFLOW

Intuitive operation

EasyTouch user interface with configurable operating concept

Integrated tabletop device functions

Endodontics, ApexLocator

Modern equipment

Innovative instruments, modern SIVISION patient communication system, USB and Ethernet interface

PERFECT RESULTS

Clinically perfect

Esthetically perfect

Perfect for the success of your practice

EFFICIENT TREATMENT.

With the EasyTouch user interface for intuitive, integrated workflows and the innovative Sirona handpieces, you can treat patients quickly and without stress.

You can select your preferred chair position quickly, safely and intuitively.

As soon as you select an instrument, the associated settings are displayed.

Identifying the precise position of the root apex is quick, accurate and simple – thanks to the built-in ApexLocator.

BL ISO E: motor, exceptionally light, speed range from 2,000 to 40,000 rpm, maximum torque 3.0 Ncm and LED light source.

BL ISO C motor: very compact, minimum speed 90 rpm, torque control, ideal for endodontic treatment, for example.

SPRAYVIT M: operation with tangible ridge between air and water buttons. Optimum vision with LED light.

The EasyTouch is the technological core of the SINIUS. It can be operated intuitively and efficiently without any prior training, and new functions can be integrated using the latest touchscreen technology. If compared to a conventional table-top unit, you can save between one and two minutes of valuable setup time with the optional endodontic treatment function with file library.

Even the innovative Sirona instruments support you with relaxed, assured treatment. Powerful motors, concentrated power, optimum speeds, ergonomic weight distribution and perfect illumination. All instruments are equipped with standardized interfaces, so you can face the future with confidence.

EFFICIENTLY ADAPTED TO SUPPORT YOUR WORK METHODS.

Based on the Sirona Ergonomics program, SINIUS helps you to work without fatigue and with the best clinical results, even on long and busy days.

Whatever your preferred posture and work methods, no matter which physical requirements you or your patients may have: SINIUS ensures healthy movement sequences and maximum patient comfort. With the Efficiency class, you can therefore achieve the best possible results, even on long days.

HUGO
The smart working stool that encourages you to adopt correct posture intuitively.

Double articulating headrest
Adapts itself quickly to different treatment situations and patients with various statures.

LEDview
The triple-jointed support arm ensures optimum illumination of the treatment site. Can be activated via the No-Touch sensor or EasyTouch console.

Motor-driven headrest
Moves the patient's head to the required treatment position automatically, gently and effortlessly.

Innovative wireless foot control
Freely positionable with no cable clutter, allowing unrestricted movement sequences.

CARL
Good seating for all situations with seat height adjustment and backrest rotatable through 360° to provide arm and body support.

ADAPTED EFFICIENTLY TO YOUR PATIENTS.

With every aspect of comfort covered and the latest in multimedia technology, you and SINIUS provide your patients with the best possible care.

Modern equipment, pleasant upholstery, high reclining comfort: The extra comfort provided by SINIUS pays dividends especially during prolonged treatment sessions. Your patients are relaxed throughout and you can concentrate on treating them.

OUTSTANDING PATIENT COMFORT

Thermo upholstery

Reduces build-up of heat in the seat cushion and backrest area, relaxes the patient with soothing cooling effect.

Lounge upholstery

The high-quality, soft leather and the comfortable filling provide perfect comfort. The material is also easy to clean and disinfect.

Lumbar support function

The backrest can be adjusted individually to the shape of each patient's back.

Maximum lowering range

SINIUS can be lowered to a height of 360 mm to make access easier for children and older patients.

With the SiroCam AF and the 22" monitor you expand not only your own view as the medical professional but you also help your patients to understand and make more informed decisions regarding treatment by showing them x-rays and planning software views.

Multimedia technology

You can call up x-rays, software and planning views, videos and Powerpoint presentations very easily with EasyTouch.

Ultramodern equipment

With full HD-22" monitor with integrated loudspeakers and the SiroCam AF autofocus camera.

MODERN PATIENT CONSULTING

EFFICIENT SUPPORT FOR YOUR TEAM.

Thanks to its hygiene concept and remote diagnosis function, the Efficiency class reduces the number of work steps and time commitment for your team.

INTEGRATED HYGIENE CONCEPT

With SINIUS, you can achieve the highest hygiene standards in minimum time. From the smooth, easy-to-clean surfaces to the easily detachable components and integrated sanitization adapter, everything is geared to easy handling and the elimination of potential sources of contamination.

SANITIZATION ADAPTER

For regular flushing of the water systems and monthly sanitization, you can simply connect your instrument hoses to the integrated sanitization adapters and with the press of a button you have optimum water quality. The suction hoses too can be cleaned with the press of a button – if desired, also with automatic metered addition of cleaning agents.

Removable handles on dentist and assistant elements.

Removable handpiece holder on dentist and assistant element.

Cleaning of suction hoses.

Chemical cleaning agents can also be deployed.

Another advantage that saves you time and money is Sirona remote diagnosis. With this service, a pre-check via the Internet can provide useful advance information before actual maintenance. It speeds up the diagnosis and maintenance process, so your treatment center is ready for the next patient sooner.

SIRONA REMOTE DIAGNOSIS

MODERN DESIGN.

Form and function in perfect harmony: Sirona treatment centers have been honored with many design prizes and will blend in seamlessly with the style of your practice.

Prestigious design awards such as the iF communication award and the red dot design award bear witness to the outstanding design quality of the Sirona treatment centers. SINIUS offers an enormous range of design options for your practice with three different color schemes. Let your imagination run free and put together the perfect combination.

ALWAYS AT THE FOREFRONT OF INNOVATION!

As global innovation leader for dental equipment, we continuously invest in research and thus in the future of modern dentistry. By networking digital technologies with integrated solutions and optimizing the treatment workflow, we create improved treatment results, more comfort and safety for the patient as well as time and cost savings in everyday work. The combination of constant innovative power and globally growing sales and service structures makes Sirona the global market leader trusted by thousands of practices and labs around the world. **Enjoy every day. With Sirona.**

CAD/CAM systems

From pioneer to new standard. For 30 years we have been developing digital dentistry and creating new possibilities for the future practice and lab.

Imaging systems

Best image quality with the lowest dose. More than 100 years of developing x-rays for the dental practice make us the number 1 innovation partner.

Treatment centers

The business card of modern practices. We are striving to create the ideal ergonomic and innovative center. Individually tailored to the well-being and demands of the patient and dentist.

Instruments

Advantages that speak for themselves. We make sure that we provide the right balance of proven quality, individual ergonomics and innovative technology for user-friendly work.

Hygiene systems

Competence that gives you safety. When it comes to hygiene in the practice, we do not take any shortcuts.

The Dental Company
